Subject: skimmed the NMFS DRAFT comments
SWCRB Workshop 2 NMFS Comments 9-7-12 draft v.5.docx

hi gang,

i skimmed through the nmfs comments, a tidy 63 kb document, few orders of magnitude smaller than ours (6.1 MB). i didn't catch anything in this letter that is contrary to what we are saying in ours.

it is heavy on status of their species, sources of new info, sources of anticipated info. it refers to prior submissions for direction to the board on what they should 'do.'

next week we should work with nmfs, fws, and dfg to provide as clear and concise direction to the board in our presentation.

Subject: Re: Revised draft comments for Workshop 2 (salmonids)

All,

Attached are the current draft NMFS comments going through final clearance. These still may change a little and the references/footnotes need to be cleaned up. I wanted to give you all a heads up that this is where our current draft sits (especially since it refers to some of your comments in it).
